

Safety and Health Management Policy

LX Semicon recognizes safety and health as its foremost responsibility. Through continuous improvement and faithful implementation, we strive to establish a safe and pleasant working environment, prevent occupational accidents, and enhance the quality of life.

To achieve this, we recognize safety and health as our top management priority and shall faithfully implement the following principles.

[Safety and Health Management Policy]

1. Comply with all applicable safety and health laws, regulations, and continuously pursue improvement.
2. Establish a healthy and safe working environment to prevent injuries and occupational illnesses.
3. Actively support education and training to enhance employees' understanding of safety and health.
4. Employees shall actively participate in safety and health activities and fulfill their assigned responsibilities and duties.
5. Identify and eliminate risk factors to reduce safety and health risks.
